H.A.K Industrial Chemicals LLC unveils coatings range at MECS 2015

Dubai, UAE: H.A.K Industrial Chemicals LLC, a member of The Kanoo Group and one of the largest suppliers of specialty chemicals & equipment and raw materials for specific industries in the region, participated in the 2015 Middle East Coatings Show which was held from 9-11th March 2015 at the Dubai International Convention and Exhibition Centre.

The Middle East Coatings is the largest coatings event in the Middle East and Gulf Region. This year's edition was sponsored by Polymers Paint Colour Journal and Asia Pacific Coatings Journal and organised by The Coatings Group and DMG events.

H.A.K Industrial Chemicals LLC represents over 15 companies in UAE, Oman, Bahrain and Qatar in the field of paints, coatings, construction chemicals and printing inks.

This year, Venkatesan Krish, General Manager of H.A.K Industrial Chemicals LLC, along with members of his team, displayed their latest product range from two important principals – Potters and Arabian Zinc at Stand B21. Potters is the largest producer of quality glass beads in the world, with a global network of 25 production plants throughout Europe, North and South America and Australasia. Arabian Zinc is the only producer of Zinc Oxide and Zinc Dust in this region and its products are widely used in protective coatings, rubber, pharma and plastics, to name a few.

The Show was well attended by existing and potential customers from the GCC, Africa and the sub-continent. Arabian Zinc presented a paper at the Technical Forum on their new product range.

H.A.K Industrial Chemicals LLC is also the authorised agent for Cabot, LKAB, Omega Minerals, Pergan, AkzoNobel, Alberdingk Boley, BASF, Borica, Dow, DSM, Dynoadd, Eastman, Elementis, Ixan-Diofan, Lawter and Michelman in this market.

With the efficient infrastructure of The Kanoo Group and the facilities of other Kanoo divisions, H.A.K Industrial Chemicals LLC continuously provides exceptional services to its customers in the UAE and other Gulf countries. It has technically qualified employees to ensure that sufficient stock of most products, including cold storage, is maintained in its warehouse at all times.

At large, H.A.K Industrial Chemicals LLC conforms to ISO 9001:2008 standards which earns the confidence of its clients for product and service quality. With today's burgeoning chemical industry needs in the region, H.A.K constantly adds more and more products and principals to its portfolio, to better serve its customers, while on the roadmap towards sustainable excellence.
