H.A.K Industrial Chemicals LLC exhibits in the largest Coating Show in the Region

Dubai, UAE: H.A.K Industrial Chemicals LLC, along with its main principal Chemical Partners Europe (CPE), took part in the 2016 Middle East Coatings Show (MECS) held recently at the Dubai World Trade Centre from 14-16th March 2016. The show brings together all global suppliers of raw materials used in paints, coatings, construction chemicals and other allied industries.

H.A.K's booth displayed products from four of its main suppliers – Potters, Arabian Zinc, Cabot and LKAB Minerals. The adjoining stand was also its principal AkzoNobel, and next to them were Chemical Partners who also exhibited over 12 of H.A.K's suppliers.

The three-day show was well attended by customers from the GCC, Middle East, parts of Africa and the sub-continent. Last year, H.A.K also exhibited in the same event. With more than 300 exhibitors, 5,000 attendees

from 82 countries in 2016, more industry pioneers, thought leaders and exciting start-ups came together for the networking opportunity.

Krish Venkatesan, General Manager of H.A.K Industrial Chemicals LLC, said, "More than the quantity, it was the quality of visitors that impressed us which lead to good technical discussions and potential new business. We have acquired two new principals during the Show – Mondo Minerals, producer of high quality talc used in specific applications in paints & coatings; and Dura, manufacturers of metal driers for the same industry."

"We keep stock of most of the products that we deal with and supply to our customers in the UAE, Oman, KSA, Bahrain, Qatar, Jordan and Pakistan", he added.
